ONŘEJ UCHYTIL

ICT / IT ADMIN

PROFILE

I am independent, highly enthusiastic, and dedicated to programming, and I am eager to continue learning and improving my skills. Through my projects, I've learned how to quickly adapt and solve issues or bugs. I would be very excited to apply my abilities and continue to grow as a developer.

I am open to new opportunities and hope to become part of your team, where I can contribute my passion and development skills.

In my IT admin career, I am was working at Czech Invest as an IT Specialist with my 2 senior colleagues. Here I gained an opportunity to put my hand on everything in IT spectrum, from more and specific Networking to PC Hardware to SCCM to On-Site Support, coding and improved over all "inner system" knowledge.

IT Specialista

English speaking company -Use of AD / work with PowerShell/ MS Admin Centre/ MS Azure / windows support / remote desktop support -HW technic / network support .

Dealing with on site and remote user support Around 3000 employees, with around 15 IT staff

SINOPSIS

2023

Web Dev practice

I worked on the development of a website for a small company, where I created a responsive design based on a Figma prototype.

I used Bootstrap 5 for this and implemented multilanguage functionalities using Laravel. In addition, I have experience with other web projects, such as wedding websites and personal portfolios (CVs) for acquaintances.

Dear Sir/Madam,

I would like to apply for the position of Junior Frontend/Web Developer.

I have experience in developing web projects, where I have worked with HTML, CSS, JavaScript, Bootstrap 5, Figma, GitHub, and have some knowledge of the Laravel framework.

I worked on the development of a website for a small company, where I created a responsive design based on a Figma prototype.

I used Bootstrap 5 for this and implemented multilingual functionality using Laravel. In addition, I have experience with other web projects, such as wedding websites and personal portfolios (CVs) for acquaintances.

I am independent, highly enthusiastic, and dedicated to programming, and I am eager to continue learning and improving my skills.

Through my projects, I've learned how to quickly adapt and solve issues or bugs. I would be very excited to apply my abilities and continue to grow as a developer. I am open to new opportunities and hope to become part of your team, where I can contribute my passion and development skills.

During my time in this role, I would like to learn how to collaborate effectively on team projects and further develop my skills in JavaScript frameworks such as React or Vue.js, as well as deepen my knowledge of Laravel and other backend technologies.

Thank you for considering my application, and I look forward to the opportunity to discuss further.

Sincerely,

Ondřej Uchýtil
